

Summary of 1/29/11 "How to Get and Keep Vision" Retreat
09:00 am to 04:00 pm at VoTech Center in Lawrence

- Much positive feedback was given to various individuals for their roles and positive attitudes at our church
- Pretty much everyone present feels we need to change the direction we're headed in – We can be unfriendly, fragmented
- We need to remember our heritage and appreciate our endowment fund
- We are concerned about offering something meaningful for our youth and young families. This is a priority to most people present.
- Interest was indicated for small group studies/dinners
- Our communication with each other and the congregations needs to be improved
- Joe is not only 'in the loop' with some things and could use some help if we want him to increase his workload (i.e. visitation)
- A GOOD potential project would be to try and connect with the families on our role that aren't attending PPUMC or another church (that we are aware of).
